“ I had the pleasure of working with bob at Flat Rock Village. On one of our days of insulating water crocks and getting ready for winter, I was showing Bob how we cut the pipe in the crock and slid a gator grip shutoff on the pipe. I neglected to tell him (yes intentionally) that the water was still on and you had to be quick so you would not get soaked. He proceeded to take the pipe cutter, cut the pipe and before he could move here came the water.....He cussed at me, we laughed, and that was his initiation. Loved him like a brother....Rest in peace my friend....
